EAST AFRICA: THE GREAT MIGRATION

Tanzania & Kenya Guided Safari
15 Days/14 Nights from Nairobi, 2020

Join our East Africa Great Migration lodge safari and follow the famous wildebeest migration, often referred to as “the greatest show on earth”! Travel through Tanzania and Kenya and discover all the secret highlights that East Africa holds. This East Africa accommodated safari is a small group safari where you will spend all of your nights in lodges / chalets or permanent tented camps. This safari circuit has departures from Nairobi and also Arusha and includes all of the major highlights in Tanzania and Kenya.

The Migration

Seeing the wildebeest (gnu) migration in East Africa is one of the most spectacular wildlife sightings in the world. Almost 2 million animals roam the plains of East Africa, but it can be surprisingly hard to find them in the vast area that they cover, as their movements are governed by the rains and predicting their location can be a gamble. This itinerary is designed to include all the areas frequented by the migration on their annual route which virtually guarantees that you will see them!

A brief outline of the migration movements:

From December to April the migration spreads out over the Southern Plains of the Serengeti. Depending on the rains they move from the Gol Kopjes in the East to the Moru Kopjes in the west. This area is easily accessible from the centrally located Seronera. (We stay in the Kisumu Kenzan Tented Camp)

Between May and August the migration slowly moves through the western corridor and into the Ikoma and Grumeti Wildlife Management Areas. These areas are outside of the Serengeti, but as there are no fences the wildlife can, and do, move around freely.

From September to end of November, during the short rains, the migration crosses into the Masai Mara in Kenya. This is a relatively small park compared to the vast Serengeti and the wildlife tends to be very concentrated. (We stay at the Mara Eden Safari Camp to take advantage of its proximity to the migration and not to mention its own private entrance gate to the park.)

Thereafter, we head to the Giraffe Centre and the Daphne Sheldrick Animal Orphanage for a visit. The institution is named after the wife of the late famous Naturalist, David William Sheldrick who was the founder warden of Tsavo East National Park in Kenya from its inception in 1948 to 1976. At 11am, the baby animals are brought from the national park for a mud-bath at the orphanage, where for an hour you can get close to them and sometimes touch them.

Lunch will follow before driving down to Amboseli National Reserve, arriving in the afternoon.
